

# PGY2 Health-System Pharmacy Administration Residency Richard L. Roudebush Veterans Affairs Medical Center

The Richard L. Roudebush VA Medical Center offers a one-year Specialty Residency in Health-System Pharmacy Administration. The purpose of the PGY2 Health-System Pharmacy Administration Residency is to support and enhance patient care by developing the knowledge and skills that are needed to achieve competency in the provision of pharmacy leadership and practice management. Graduates of the program shall be able to develop, implement, monitor, and maintain operational and clinical pharmacy services, and shall be able to successfully apply the principles of strategic planning, personnel development, needs-based communication, fiscal management, regulatory compliance, program development, evidence-based outcome assessment, and pharmacoeconomics.

Training activities will include topics on personnel management, communication, resource management, project development and management, leadership, quality management, and medication use processes. Additional experience may also be provided within the VISN 11, VHA PBM, private sector, and academic environments. To provide broad training and experience in the fundamentals of pharmacy management and leadership, the program offers the resident flexibility and experience in areas of possible specialization in order that he/she may better formulate personal long-range goals.

The resident experiences shall include, but are not limited to, the following activities:
